EXPERIENCE

OS STUDIOS (2023-2025)

Engineer In Charge

- Technology lead for livestreams of high profile clients and events.
- Create plans for and build out mobile control rooms for flypack and broadcast truck supported shows.
- Bridge the gap between front of house and broadcast teams.

Broadcast Engineer

- Engineered live, hybrid, and REMI livestreams with in-house resources.
- Designed, installed, and maintained two control rooms at office space.
- Stood in as operator for TD, replay, audio, graphics, etc.

MAJOR LEAGUE BASEBALL (2022-2023)

Engineer In Charge

- Lead team of engineers and operators during live games in office.
- Coordinated and executed installations and maintenance of equipment across the country.

Replay Support Engineer

- Configured, launched, and troubleshot softwares remotely.
- Work hand in hand with venue techs to troubleshoot camera feeds and equipment both before and during broadcasts.

CONNOR DUFFY MEDIA FREELANCE (2022-2023)

Technical Director and Livestream Operator

- Operated switcher for college sports, hybrid events, and more. Executed setup and breakdown of mobile sets.
- Broadcasting all audio/visual content during corporate events.

THE INCEPTION COMPANY (2020-2022)

Technical Producer

- Re-engineered and routed feeds to facilitate hybrid virtual and in-person presentations.
- Operated the switcher for live hybrid events featuring both live and in-person speakers and audience members.
- Researched and advised on technology purchases for both new hardwares and softwares for a video production studio.
- Created show flows and ran rehearsals. Interfaced with clients and technical directors to put on live events.
